CAREER OBJECTIVE

Seeking a challenging position in an organization where I can use my talents and skills to grow and expand an organization as well as myself

INTERNSHIP EXPERIENCE

Six months Experience in **Chip Logic Technologies Bengaluru**

Machine Learning Intern

Fake News Detection

- ❖ Developed versions of different models simulating real-world solutions as prototyping for a team of machine learning engineers.
- ❖ Collaborated with machine learning engineers to test infrastructures and search for solutions for the final version.
- ❖ Researched and built strategies to find other techniques and solutions.

COLLEGE PROJECT

Automatic Nursery Farm Protection with Wild Animal Detection

Designed animal detection model using self-learned Deep Convolutional Neural Network (DCNN) features. This efficient feature set is then used for classification using state of the art machine learning algorithms, namely support vector machine, k-nearest neighbor and ensemble tree.

TECHNICAL SKILLS

Languages: CSS, HTML, JavaScript, TypeScript, MySQL, Python.

Framework: Bootstrap, MUI, MongoDB, Django.
